

Interpump

Interpump is a Cambridge, Ontario-based pumps, and water systems equipment distributor. With a team of technical specialists, Interpump provides solutions for residential, commercial, industrial, and municipal applications.

- **Distribution:** Interpump distributes pump and water systems equipment from a select group of manufacturers including Xylem / Goulds Water Technology, DAB, Liberty, Liberty Engineered Products, and many others.
- **Engineering:** With our in-depth knowledge of the critical pump industry, we offer exceptional technical support for residential, commercial, industrial, and municipal sectors. Our engineering team can design pumping systems for potable, wastewater, and booster pump applications.
- **Startup & Commissioning:** We offer expert startup and commissioning services for your pumps, VFDs, and systems. Whether on-site or virtual, we ensure the smooth operation of your equipment.

Interpump is a division of Summit Water
